HW2 instructions: Project number 4, page 91

Create 2 files: PileInterface.java, containing the interface required by BookDemo.java, and
               PileOfBooks.java, containing the implementation of the interface.

Download and use BookDemo.java without modification.
Compile and run the program to verify the correctness of your two files.
Submit your two files to the dropbox, no need to submit the BookDemo.java file
